

REMARKS/ARGUMENTS

This case has been carefully reviewed and analyzed, and reconsideration and favorable action is respectfully requested.

DRAWING OBJECTION

5 Figures 1 and 2 of the drawings were originally objected to because of some informalities.

Responsive to this, figures 1 and 2 are corrected in accordance with the Examiner's instruction and suggestion and it is believed that the objection should be removed.

CLAIM REJECTION UNDER 35 U.S.C. 103(a)

10 Claim 1 and 6 were originally rejected under 35 U.S.C. 103(a) as being unpatentable over Wallace in view of Gillingham.

In addition, claim 7 was originally rejected under 35 U.S.C. 103(a) as being unpatentable over Wallace in view of Gillingham, and further in view of Martinez, Jr. 15 et al.

However, the Examiner has pointed out that claims 2-5, 8 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

20 Responsive to this, claim 2 is deleted, and claim 1 is amended which is substantially the combination of original claims 1 and 2 so as to make the claimed

invention more distinguishably patentable over the prior art references cited by the Examiner.

Accordingly, by the amendments, it is believed that the rejection under 35 U.S.C. 102(b) and 103(a) should be withdrawn, and the amended claim 1 should be
5 allowable.

It is further submitted that the claims 3-9 should be allowable as they are dependent upon the amended claim 1 which is believed to be allowable.

In view of the foregoing amendments and remarks, Applicant submits that the application is now in a condition for allowance and such action is respectfully
10 requested. If any points remain in issue, which the Examiner feels could best be resolved by either a personal or a telephone interview, he is urged to contact Applicant's attorney at the exchange listed below.

Respectfully submitted,

15
